

G.I STABLE-EZ SUPPLEMENT

Now with Leaky Gut Protection

ELK GROVE MILLING, INC.
ESTABLISHED 1982
STABLE MIX™
For Healthier, Happier Horses

Yucca

Added to reduce and maintain ammonia levels in which upholds respiratory health, improves feed efficiency, and supports growth and performance.

Digestive enzymes

Allows for better utilization of nutrients resulting in better performance and less waste of nutrients in manure.

Yeast culture

Stimulates fiber digesting bacteria, resulting in improved fermentation of feeds and forages. This coupled with the enhancement of other beneficial bacteria (such as lactic acid-utilizing bacteria) provides for a more stable hindgut environment.

Probiotics

Adds good bacteria to the digestive track for optimum gut health thus maximizing digestion and overall health of the horse.

Prebiotics

Removes unwanted bacteria from the digestive track, while being a food source for the good bacteria. Thus creating the right balance of bacteria for a healthier gut and stronger immune system.

Toxin binder

Removes unwanted toxins improving gut health and immunity. This leads to improved growth and performance including reproduction.

Butyric Acid and Zinc

Targets tight junctions of the small intestine, improving integrity of the gut lining while reducing inflammation. This helps prevent Leaky Gut Syndrome that can be caused by stress, feed changes, medications, and pathogenic bacteria.

Formulated with
Solutions from

LEAKY GUT SYNDROME

DIET

- Hay variability
- Feed and water quality
- Toxins from molds
- Feed and water restrictions

METABOLIC

- Obesity
- Insulin resistance
- Inflammation
- Metabolic syndrome

HEALTH

- Pathogens (e.g. *Clostridium*, *Salmonella* or *Escherichia coli*)
- Parasites
- Diseases

SITUATIONAL

- Travel/trailing
- Vet and farrier visits
- Schedule changes

ENVIRONMENTAL

- Pests
- Hot, humid weather
- Socialization changes
- Changes to habitat

PERFORMANCE

- Training
- Injuries or joint issues
- Show schedules

MEDICATIONS

- Pain/NSAIDS (e.g. Banamine® or Equioxx®)
- Antibiotics
- Deworming treatments
- Vaccinations

MILESTONES

- Reproduction
- Lactation
- Weaning
- Breeding
